

I am currently registered on the no-call list in Indiana. I am urging the FCC to allow state no-call criteria to be recognized and enforced. I am opposed to the Consumer Bankers Association request to allow member banks to contact previous customers, even though we are on the state's no-call list. This is NOT an issue that should require uniformity among all states. Indiana citizens should be permitted to establish their own criteria for restricting phone solicitation by state legislation.

Thank you for considering my concern.
